

### BSI & Kitemarks

**Regency Glass is committed to continuously improving product & service to provide its customers with goods that meet industry recognised national and European standards.**

The Kitemark is a BSI certification mark, licensed for use on a product after independent testing has been carried out to establish conformity with the stated standard, & satisfactory assessment of the manufacturing control process has taken place to establish that such conformity may consistently be achieved. BSI verifies product conformity by periodic testing & assessment of the manufacturing control process.

Regency Glass is accredited with Kitemark certification for both Insulating Glass Units & Flat Safety Glass:

- Kitemark licence KM22357 – IGU's in respect of EN1279 part 2 & EN1279 part 3 (gas filled)
- Kitemark licence KM34818 – Flat Safety Glass in respect of EN 12150.

Regency Glass BS certified products are manufactured under an ISO 9000 quality system.

### BSI

Kitemark – the facts speak for themselves:

**82%** of the UK adult population recognise the Kitemark.

**91%** of those that recognised the Kitemark believe it gives them a reassurance of quality.

**69%** of those that recognise the Kitemark are willing to spend more on a Kitemark product.

**93%** regard the product as safe.

**88%** associate the product with reputation and trust.

Data provided from an independent survey conducted by Gfk NOP, July 2006.

EN 12150  
Lic No: KM34818

EN 1279 Part 2 & 3  
Lic No: KM22357
